SM2-80TW

SM2-25W

Paramount spiral mixers are designed to withstand the demands of high production bakery. The structure is fabricated from heavy gauge steel and 2 pak painted for high wear resistance. The mixers are fitted with an electronic control panel which provides options for slow speed mixing in forward or reverse direction, high speed mixing in forward direction, and incorporates a bowl jog feature to allow easy removal of dough. The wire grid guard is designed for complete operator safety, but still allows easy visibility of the dough while mixing.
